

MAXIMISE YOUR APPLICATION.

Funding is essential for all businesses, particularly SMEs. Applying for grant funding can be complex and time-consuming.

Medilink North West's new Bid Review Service is designed to ease the process of applying for grants.

WHY CHOOSE US?

- We are specialists in medical devices and Life Sciences.
- We assess your application through an objective and structured programme.
- We have a breadth of knowledge of different funding providers and an excellent track record in securing applications.

What is the Bid Review Service?

Medilink North West has established a unique solution to grant applications. Whether you are looking for a bid proposal, pre bid or post bid review, we can assist, enabling you to maximise your initial application or re-submission.

Why use this service?

With demand for grants so high, competition can be fierce. The time consuming application process demands a range of skills, each requiring a large depth of knowledge, proven methodology and relationship management. Medilink can articulate this knowledge into a well-written and highly focused application, while also providing objective feedback to ensure a more considered and comprehensive approach.

What will you gain?

Having Medilink apply a critical eye to your application will ensure it is focused on funder objectives and that your message is clear and consistent. Our services provide you with an opportunity to obtain great benefit from the panel of Medilink experts.
